Philips AVENT
Nipple

Classic
1 hole Newborn Flow
0m+

SCF631/27

Good feeding , good sleeping

Helps settle your baby, especially at night**

With the Philips AVENT Classic nipple, your baby controls milk flow, which can help reduce over eating and spit-up.The unique valve opens to allow air into the bottle, promoting healthy, active feeding and reducing fussing** and colic.***

More comfortable feed at baby's chosen pace
- Easy latch on due to the unique valve on the nipple

Reduce fussing and discomfort
- Clinically proven to significantly reduce fussing

Air goes into the bottle, not baby's tummy
- Unique anti-colic system

0% BPA (Bisphenol A Free)
- BPA free* nipple

Other benefits
- Different flow rate nipples available
- Compatible with Classic feeding bottle

PHILIPS
AVENT

Nipple
Classic 1 hole Newborn Flow, 0m+

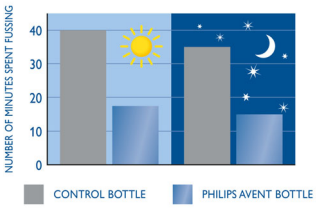
SCF631/27

Highlights

Easy latch on

Unique valve on the nipple flexes to your baby's feeding rhythm. Milk will only flow at the pace chosen by your baby to minimize overeating and spit-up, burping and gas

Significantly reduces fussing



Sleep and nutrition are vital to your baby's health and happiness. A randomised clinical trial was carried out to see whether infant baby bottle design affects "infant behavior". The Philips AVENT Classic baby bottle was shown to significantly reduce fussing by approximately 28 minutes a day as compared to the comparator bottle (46 min vs 74 min, p=0.05) This was especially true during the night-time.**

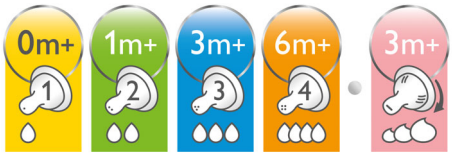
Unique anti-colic valve

As your baby feeds, the unique valve on the nipple flexes to allow air into the bottle instead of your baby's tummy.

BPA free*

This nipple is made from silicone - a BPA-free* material

Fit your baby's growing needs



The Philips AVENT Classic bottle offers different flow rates to keep up with your baby's growth. Remember that age indications are approximate as babies develop at different rates. All nipples are available in twin packs.

Compatible with Classic bottle

We advise to use the Classic nipple with Classic baby bottles only.
